FOAMplus[®] 7008-BIO

RESISTANT, ROBUST AND
BIOBASED

FOAMplus® 7008-BIO IS HIGH-QUALITY PACKAGING FOAM WITH BIOBASED CONTENT.

Storopack’s packaging foam FOAMplus® 7008-BIO puts sustainability center stage: the polyurethane foam boasts more than 83% real biobased carbon content material in the B-Component. That means this material is made of renewable sources and, as every material with biological origin, it carries a much lower carbon footprint than equivalent fossil origin products.

FOAMplus® 7008-BIO foam offers the same material properties as conventional polyurethane. This ensures the usual high-quality protective packaging for a wide variety of packaging applications, such as the cushioning and blocking and bracing of shipping goods in the box.

FOAMplus® 7008-BIO AT A GLANCE

- Innovative** ▶ B-COMPONENT WITH MORE THAN 83% CARBON FROM REAL BIOBASED SOURCES AT A COMPETITIVE COST
- Certified** ▶ FIRST POLYURETHANE PACKAGING FOAM ON THE MARKET, CERTIFIED BY SGS
- High-quality** ▶ BOASTS THE SAME MATERIAL PROPERTIES AS CONVENTIONAL POLYURETHANE
- Reliable** ▶ GUARANTEES RELIABLE CUSHIONING AND BLOCKING AND BRACING OF SHIPPING GOODS INSIDE THE BOX
- Versatile** ▶ WHEN IT HARDENS, THE PACKAGING FOAM ADAPTS TO THE SPECIFIC CONTOURS OF THE PACKAGED GOODS, MAKING IT SUITABLE FOR MANY APPLICATIONS

BIOBASED FILM AND FOAM
FOAMplus® 7008-BIO is available in combination with FOAMplus® bio film, which also features certified bio-based content. This provides the perfect solution for those looking to reduce the environmental impact of their packaging.

STOROPACK – PERFECT PROTECTIVE PACKAGING

Wherever in the world you send your products, we want them to be well protected while in transit.

FOAMplus® IS HIGH-PRECISION PACKAGING, LIGHT AS A FEATHER.

Our FOAMplus® packaging system protects your products using true-to-contour padding made of shock-absorbing polyurethane. Foam padding from Storopack is environmentally friendly as it is lightweight, reduces transport costs, and can be reused for the same products.
